Recruitment – An Ongoing Effort at Temiskaming Hospital

The Health Professionals Recruitment Tour (HPRT) is an annual job fair that provides an opportunity for residents, medical students, and other health professionals to meet and make contacts with community representatives from underserved areas across Ontario. The Tour this year covered 3,200 kilometers making stops in Thunder Bay, Ottawa, Kingston, London, Hamilton, Toronto and Sudbury.

Representatives from Temiskaming Hospital once again participated in the tour hopeful to make connections with interested individuals in an attempt to fill a number of vacancies:

- seven full-time general practitioners (four in New Liskeard and three in Haileybury);
- one full-time general surgeon; and
- one full-time psychiatrist

Dr. Stacy Woods, Temiskaming's newest physician, has great things to say about the Health Professionals Recruitment Tour including the fact that it provides:

- the chance to speak directly with both residents and fully qualified physicians;
- the ability to introduce communities to physicians that they may never have considered by showcasing both the medical practice opportunities and the benefits of living in the community itself;
- the opportunity to find physicians who may be interested in providing locum coverage to allow vacation time for full-time physicians .

So what brought Dr. Woods to Temiskaming Shores?

"The diversity of the scope of practice that family physicians provide here, the collegial atmosphere among the health professionals in the community, the well equipped hospital that provides exceptional care, and the beautiful lakeside community with great amenities are just a few of the things that brought me to Temiskaming."

Temiskaming Hospital...A Great Place to Work!
